

## Merchant & Trucking Companies

### Discount Relationship Policy

Comdata uses a standard relationship form to administer discount pricing components between a merchant and a trucking company. For newly established relationships, the form is signed by both the merchant and the trucking company. When a change is made to an existing relationship, Comdata will ensure both the merchant and the trucking company receive signatures of the change, along with a copy of the form.

This provides the merchant and the trucking company the assurance that their discount relationship and component pricing are accurate.
